

ISO 9001: 2015
A Quality Management System
Implementation & Audit

INNORPI GROUP

What is Quality?

“The degree to which a set of inherent characteristics fulfill requirements”.
ISO 9000

- A degree of excellence – The Concise Oxford Dictionary
- Fitness for Purpose – Defoe and Juran (2010)
- Quality is a dynamic state associated with products, services, people, processes, and environments that meets or exceeds expectations and helps produce superior value – Goetsch and Davis (2010)
- Conformance to requirements – Phil B. Crosby (1979)

The ISO 9000 series of standards is the international standard for quality management. The aim of this series of standards is to aid supplier quality assurance and to provide a common, authoritative and widely accepted standard by which to evaluate and compare the potential of firms to meet acceptable levels of quality and reliability

Quality $\neq$ Specification

High Specification

Low Specification

If both cars satisfy the purpose for which they were purchased, they can both be quality products
