

Generating Audit Findings

- ✓ Results of evaluating audit evidence against audit criteria (ISO 9001) to generate audit findings
- ✓ Indicate if findings are conformities, nonconformities or opportunities for improvement
- ✓ Record nonconformity findings and supporting evidence
- ✓ Obtain auditee acknowledgement of nonconformities for accuracy and understandability
- ✓ Keep a record of unresolved issues

Conclusion: The result of the audit after taking into consideration the objectives of the audit and the findings

Closing Meeting

- ✓ Hold closing meeting to present audit findings and conclusions
- ✓ Cover situations encountered during audit that may decrease reliance on audit conclusions
- ✓ Discuss and resolve diverging audit findings and conclusions
- ✓ Keep a record if not resolved
- ✓ Provide recommendations for improvement where specified by audit objectives
- ✓ Keep minutes and attendance records
- ✓ Will normally be informal for internal audits
