

Nonconformity

- ✓ Non-fulfillment of a specified requirement:
 - Not doing it
 - Partially doing it
 - Doing it the wrong way
- ✓ Specified requirement:
 - Conditions of the customer contract
 - Quality standard (ISO 9001:2015)
 - Statutory or regulatory requirements

Nonconformity – Minor

- ✓ Failure to comply with a requirement which (based on judgment and experience) is not likely to result in QMS failure
- ✓ Minimal risk of nonconforming product or service
- ✓ Examples:
 - A two month lapse in the internal audit program
 - A training record not available
 - No actions taken to improve system based on previous result findings

Nonconformity – Major

- ✓ Absence or total breakdown of a system to meet a requirement
- ✓ A number of minors related to the same clause or requirement
- ✓ A nonconformity that experience and judgment indicate will likely result in QMS failure or significantly reduce its ability to assure controlled processes and products
- ✓ Examples:
 - No documented procedure for a required documented ISO 9001:2015 process/activity
 - No awareness program for the quality management system
 - No future planned internal audits
 - Insufficient scope
 - Numerous minor nonconformities found in the production process
