

Clause 6: Planning

6.1. Actions to address risks & opportunities

Determine the risks and opportunities that need to be addressed to:

- ✓ Give assurance that the QMS can achieve its intended result(s)
- ✓ Prevent or reduce undesired effects
- ✓ Achieve continual improvement.

Avoiding the risk

Taking the risk

Eliminating the risk

Sharing the risk

Do nothing

Methods for risks analysis:

- FMEA—failure mode and effects analysis
- Fishbone
- FTA—fault tree analysis
- ETA—event tree analysis
- Pareto–analysis

FAILURE MODE & EFFECTS ANALYSIS (FMEA)				Date: 1/1/2018
Process Name: Left Front Seat Belt Install Process Number: SBT 445				Revision: 1.3
Failure Mode	A) Severity Rate 1-10 10=Most Severe	B) Probability of Occurrence Rate 1-10 10=Highest Probability	C) Probability of Detection Rate 1-10 10=Lowest Probability	Risk Preference Number (RPN) AxBxC
1) Select Wrong Color Seat Belt	5	4	3	60
2) Seat Belt Bolt Not Fully Tightened	9	2	8	144
3) Trim Cover Clip Misaligned	2	3	4	24

Risk—The probability of arriving at an unexpected state where requirements are not met. This state is represented by potential events.

Opportunity—The possibility for improvement due to a favorable combination of circumstances or conditions in the QMS.

OPPORTUNITIES	RISKS
◆ New income stream	⚠ Cost to deliver
◆ Broader experience for staff	⚠ Safety risks for staff
◆ Organisational knowledge-base, specialisation	⚠ Cost of having a staff member out for a day
	⚠ Having a staff member susceptible to influence while on site
◆ New equipment assets	⚠ Cost of equipment needed and time/cost involved in maintenance
◆ Less idle time for existing assets	⚠ Damage in transport
◆ Enhanced reputation	⚠ Maintaining reputation and standards
	⚠ Managing record-keeping in a completely different environment
◆ Chance to broaden accreditation	⚠ Potential new NATA accreditation requirements
◆ Chance to apply your existing accreditation to a new area	⚠ Time involved in attaining or maintaining accreditation
◆ Satisfied, loyal customer who is good to work with	⚠ Unreliable or time-consuming client.
◆ Referrals	⚠ Possibility of negative experience for customer

Auditing

- ✓ Review the risk management documents (Risk registers)

If there's no risk management documents:

- ✓ Conduct interviews
- ✓ Review other documents (Market research documents, strategies documents, competitor information)
