

Clause 7: Support

7.5. Documented Information

7.5.1. General

- ✓ Documents need to be maintained as documented information: Must be kept up to date/ Revised (quality policy, quality objectives)
- ✓ Records need to be retained as documented information (records must be kept as evidence that the organization have satisfied that particular requirement)

In order to prove that it's working a QMS, the organization needs to evidence it

7.5.2. Creating and Updating

- ✓ Identification and description (reference numbers .. etc.)
- ✓ Format (language, software version, graphics) and media (paper, electronic)
- ✓ Review and approval

7.5.3. Control of Documented Information

- ✓ Available to the right people
 - ✓ In a suitable format
 - ✓ Protected from unintended alteration or destruction
- 

Control of documented information:

- ✓ Distribution, access, retrieval and use
 - ✓ Storage and preservation
 - ✓ Control of changes
 - ✓ Retention and disposition
- 

Auditing

- ✓ Ensure documented information required by the standard (quality policy, quality objectives) are maintained
- ✓ Ensure documented information necessary to ensure the effectiveness of its QMS (like manuals, procedures, instructions, etc.) to be maintained
- ✓ Ensure documented information is properly created and updated
- ✓ Ensure documented information is properly controlled

Note: This isn't a stand alone action
