

Clause 8: Operation

8.1. Operational Planning and Control

Plan, implement and control the processes needed to meet requirements for the provision of products and services, and to implement the actions determined in 6.1 by:

- ✓ Determining requirements for the products and services
- ✓ Establishing criteria for the processes and acceptance criteria
- ✓ Determining the resources needed
- ✓ Implementing the control of processes
- ✓ Retaining documented information

- ✓ Set up supplier accounts / trade accounts
- ✓ Purchase stock
- ✓ Ensure personnel have correct skills and understand the process
- ✓ Purchase tools and vehicles
- ✓ Make sure the organization has enough personnel
- ✓ Issue clear instructions, drawings, procedures risk assessments to enable personnel to do the job.

The organization needs to show clear control of the process

The same control should be applied to subcontractors

Auditing

- ✓ Ensure requirements for the products and services are identified
 - ✓ Review documented information/Project plans before the organization and the customer commit to the work
 - ✓ Ensure measures are taken to make sure all applicable legal requirements are met
-
