

8.6. Release of Products and Services

The organization is required to implement planned arrangements, at appropriate stages, to verify that the product and service requirements have been met

✓ Methods/Techniques/Formats

Product Release

The release of product

- Release to the next operation
- Release to an internal customer
- Release to final customer

- ✓ Product characteristics are continually met
- ✓ Evidence of conformity with product requirements.

Planned arrangements

- Design verification and design validation (modelling, simulations, experiments, trials, prototypes, etc.)
- Destructive and non-destructive testing
- Customer acceptance testing
- Product certification/qualification
- Third party qualification from a regulator, recognized society, or independent testing body etc.

Retain documented information to provide evidence that acceptance criteria have been met

Auditing

- ✓ Verify that records are maintained to provide evidence of conformity (certificate of conformity, release certificate, regulatory certificate)
- ✓ Person(s) authorizing the release of products? (name, authorized signatories, user identification)
Their authority status?
