

8.2.2. Determining the Requirements Related to Products and Services

Process to determine the requirements (customer, regulatory, safety, and organizational) for the products and services to be offered to potential customers.

The organization has the ability to meet the defined requirements and substantiate the claims for the products and services it offers.

Auditing

- ✓ Evaluate the process/method to determine requirements related to products and services
 - ✓ Ensure the organization has the ability to meet the defined requirements and substantiate the claims for the products and services it offers.
 - ✓ Review of documented information (websites, catalogs, brochures, etc.)
 - ✓ Conduct interviews
-
