

9.2. Internal Audits

- ✓ Feedback loop on its processes
- ✓ To be able to highlight areas for improvement

9.2.1

The organization is required to perform internal audits of its QMS at planned intervals.

- ✓ The QMS conforms to the organization's requirements
- ✓ The QMS conforms to the ISO 9001:2015 standard's requirements
- ✓ That the QMS is effectively implemented and maintained

Are you doing what you said you would do in your QMS?

Are you following your own procedures?

Is it a living system?

9.2.2

- ✓ The planning, implementing and maintaining of the audit program
- ✓ Defining the audit criteria (Policies, processes, performance criteria, information {risks and opportunities}) and scope of each audit
- ✓ Selection of auditors and conducting audits to ensure objectivity and the impartiality of the audit process
- ✓ Ensure that the results of the audits are reported to relevant management
- ✓ Take appropriate correction and corrective actions without undue delay (non-conformance or improvement notice: actions should be taken)
- ✓ Retain documented information as evidence of the implementation of the audit program and the audit results.(calendar, referencing any non-conformances or improvement notices

Frequency? How? Responsibilities? Planning and reporting?

Once/2 years, quarterly, monthly, regularly (flexible)

For example: auditing the supply chain

Risk-based Thinking

Complexity, Size, Criticality
and previous audits

Auditing

- ✓ The competencies that are needed for and applied to the audit
- ✓ Objectivity and impartiality of the internal audit process
- ✓ The risk-based thinking performed by the organization in planning internal audits
- ✓ The degree of management involvement in the internal audit process
- ✓ The guidance provided by ISO 19011 (but note that ISO 9001 does not require the organization to use ISO 19011)
- ✓ The way the outcome of the internal audit process is used by the organization to evaluate the effectiveness of its QMS and to identify opportunities for improvements.
