“ISO 9001:2015 is not a giant, scary monster. It’s a commonsense approach to running any organization. When process owners complain about additional work that ISO 9001 creates, I always ask them, ‘Tell me one thing in ISO 9001 you wouldn’t do in a business.’ With or without ISO 9001, the requirements outlined in the standard are fundamental to any business.”

Govind Ramu, the chair of subcommittee of ISO 9001:2015
